### SHERIFF'S SALE.

County of Oxford, ss. June 10, A. D. 1909.  
Taken this 10th day of June, A. D. 1909, on execution dated May 27th, A. D. 1909, issued on a judgment rendered by the Supreme Judicial Court for the County of Oxford, at the term thereof begun and held on the second Tuesday of May, A. D. 1909, in favor of the Norway National Bank, a corporation duly and legally established under the laws of the United States of America, and having its established place of business at Norway, in the County of Oxford, and State of Maine, and against Elin M. Greely and Mary E. Greely, both of Oxford in the County of Oxford, and State of Maine, for the sum of \$100.00, with interest, which said Elin M. Greely and Mary E. Greely had and have in and to the said County of Oxford, and State of Maine, at 3 o'clock and thirty (30) minutes in the afternoon, the time when the same was attached on the writ in the same suit, to wit: a certain lot or parcel of land with the buildings thereon, situated in the said Town of Oxford, and being the homestead farm which was conveyed to me by Chas. L. Bray et al., by his deed of warranty dated November 18th, 1901, and recorded in book 20 page 61 of the Oxford Registry of Deeds, and being a part of what was formerly known as the Elin Bartlett farm, which was situated in Oxford and embraced a small parcel conveyed to said Chas. L. Bray by Mary C. Hargen, situated on the north and east side of road leading from South Paris to W. N. Thomas place, bounded northerly by town line west by land of Hazen and Kimball, now or formerly, and land of said Chas. L. Bray; reserving right of way across said premises in the same way, as mentioned and reserved in the said deed from Chas. L. Bray et al. to me, and it is the intention of this deed to convey exactly the same premises that were conveyed to me by said Bray et al. in the said warranty deed, to wit: to which deed and the record thereof reference is hereby made for a further identification of the property herein mentioned and this conveyance is made subject to a mortgage on said premises given to the South Paris Savings Bank, and now held by S. Porter Stearns of South Paris, on which is due eleven hundred and forty-five dollars, and interest, and said mortgage and the debt thereby represented, the said mortgage assumes and agrees to pay, as a part of the consideration for the deed. 3538  
WILLIAM A. RICKNELL, Deputy Sheriff.

### STATE OF MAINE.

County of Oxford, ss. May 27th, 1909.  
Taken on execution, wherein L. Rexford Rounds and Florence B. Rounds, both of Waterford in the County of Oxford and State of Maine, Co-defendants, doing business under the firm name and style of L. R. Rounds & Co., are plaintiffs and Charles D. Haskell, then of Waterford, in said County and State is defendant, as it will be sold at public auction, on the eighth day of June, A. D. 1909, at ten o'clock in the forenoon, at the store of L. R. Rounds & Co. in Waterford, in said County, all the right in equity which Charles D. Haskell, of Waterford, in the County of Oxford, had on the thirteenth day of May, A. D. 1909, when the same was attached on the original writ, to redeem the following described, more or less, real estate, situated in Waterford, in said County, to wit: a certain lot or parcel of land with the buildings thereon and described as follows:—Being a part of the place known as the James E. Dudley place, commencing at a large rock in the wall at the corner of the field northerly—from the buildings on said lot, thence north sixty-two degrees east, eight rods and twenty links to a stone wall near the top of the hill; thence south thirty-five degrees east, forty-two rods to a spotted red oak tree; thence south seventy-seven degrees east to the eastern round of the road leading from South Waterford to Harrison Village; thence northerly on the easterly side of said road to the first named house, containing two and two-thirds acres more or less, with right to draw water from a spring above said lot for the use of one family. Excepting right of way for a cart road across in an easterly direction from said lot to the top of the hill southerly from the buildings. Said real estate is subject to a mortgage given by said Charles D. Haskell, to George S. Fries, of Harrison in the County of Cumberland, recorded in the Oxford County Registry of Deeds, Book 265, Page 226 on which said debt is due about one hundred and fifty dollars.  
Waterford, May 27th, 1909.  
J. MELVIN BARTLETT, Deputy Sheriff.

### Founder of Hebron Academy.

In 1770 at the close of the war William Barrows came down to Hebron from Carver, Mass., having secured a small piece of land here. He felled the trees upon that land and built upon it a log cabin. He was then married and he returned to Massachusetts and came back with his wife. He reached West Minot and there learned that his log cabin in some way or other had been burned, thus making his prospects for a very sumptuous honeymoon poor.

But there was a saw mill at West Minot and neighbors of the Deacon bought boards and carried them up on their backs three or four miles to Hebron and rebuilt the log cabin. It took only a few days and the Deacon brought back to that cabin his wife.

Here he remained and cultivated the land and in the course of time others came down from Massachusetts and settled around him, a very few having come before him.

Now, Deacon Barrows was a soldier of the Revolution and he knew what it was to endure hardship, and he knew what it was to struggle for principle. Converted as the result of the terrors of that religious matters and in 1791, only a few years after his coming to the spot, he organized the first Baptist church of Hebron, this church that is now in existence; and from that time until 1798 he was not only a deacon of the church but practically its minister; for during all that period, if no minister appeared to conduct public worship, he himself led the service, either by exhorting the people or by reading a sermon that some one else wrote.

In 1798, Elder John Tripp came to Hebron and became pastor of the church although there was as yet no meeting-house and the meetings were held around in kitchens and barns. In 1803, after Elder Tripp had been pastor five years, Deacon Barrows thought it about time that some provision was made for the establishment of a meeting-house where regular church service could be held on Sunday.

Accordingly, with a little assistance from his friends and neighbors, but mainly by his own efforts and contributions he built a structure upon the spot where the old academy formerly stood, and where the big memorial stone that marks the ground.

In 1804, the year after the deacon having had in contemplation when he constructed the building the incorporation of an academy, went from here to Boston at his own expense, when the general court of Massachusetts was in session and obtained from that legislature the act of incorporation of the academy. Thus the school was incorporated in 1804, by that hardy pioneer whose watchword now cast into the bell that calls the students of Hebron to their daily routine of duty, was "I fear God and I know no other fear."

### Vacation Trips.

If ever there was a favorable opportunity to visit the Western States and the Pacific Coast, it will be this summer. The attractions there are as numerous, and the rates as low as any reasonable person could expect.

Of course, the Alaska-Yukon Exposition, to be held at Seattle, Wash., from June 1st to October 10th, will be the main feature, and this has led to a number of our patriotic, social and benevolent bodies to hold their Annual Convention in the West this year. The Grand Trunk Railway System is granting special low excursion rates which can be taken advantage of on this trip. This summer have an idea that these special low rates are only intended for the delegates of the fraternal bodies. Such is not the case, however, as anyone who wishes to make the trip can secure these rates on application to any of our agents, or by communicating with Mr. J. Quinlan, District Passenger Agent, Montreal.

The following are some of the organizations who will hold their annual convention in the West this year:—National Association Woman's Suffrage, Seattle, Wash., July 1 to 7, '09. Epworth League, Seattle, Wash., July 7 to 12, '09. I. O. O. F., Seattle, Wash., Sept. 20 to 25, '09. National Irrigation Congress, Spokane, Wash., Aug. 9 to 14, '09. Northern Baptist Assn., Portland, Ore., June 25 to July 2. National Educational Assn., Denver, Colo., July 3 to 9, '09. Benevolent and Protective Order of Elks, Los Angeles, Cal., July 11 to 17. National Encampment, G. A. R., Salt Lake City, Utah, July 9 to 14. Y. F. C. Union, Universalist Ch., Minneapolis, Minn., July 7 to 14.

Tickets will be issued by any of the regular routes going and returning, or going by one route, and returning by another—only travel through California is desired. Part of the route may also be taken through the Great Lakes. The Alaska-Yukon Exposition at Seattle, Wash., June 1st to October 10th will, from all accounts, surpass anything in this line heretofore held in America, and the public is the fact that the Exposition will be open and everything in full working order precisely on the date advertised, viz., Tuesday, June 1st.

Agents of the Grand Trunk Ry. System will be pleased to receive communication from passengers who intend visiting the Exposition, or from delegates attending the different conventions, and give full information as regards rates, time, fares, and routes, also arrange for sleeping or parlor car reservations. This will be attended to promptly, and early replies given in each case.

Cyrus T. Wardwell of Oxford is the newly elected junior vice commander of the Maine G. A. R. Mrs. Mary R. Tarbox of Fryeburg is junior vice of the Ladies G. A. R. A delegate at large to the National Encampment, Sarah Phillips of Fryeburg.

### Gunpowder Holiday.

The Usual Agitation For a Quieter  
Observance of the Glorious Fourth of July.

Every year as the Fourth of July approaches, certain papers undertake an agitation against the gunpowder method of celebrating that great anniversary. Thus far they have accomplished little but add to the general noise. The small boy loves his "giant cracker" and the big boy worships his rocket, even if they occasionally blow off a finger or poke out an eye. Where there is a lad so unpatriotic as not to be willing to risk life and limb in the proper observance of the first national holiday.

Still the figures of the killed and wounded are a trifle startling. Three years ago this fourth of July, exuberance killed one hundred and sixty persons and maimed over five thousand. That would be a total of a pretty fierce battle. Coming down to details the list is horrifying. The New York Outlook gives it as follows: "Of these probably seventy-five died of tetanus, or lock-jaw, thirty-four were killed by gunshot wounds, fourteen by stray bullets, eighteen, most of very small children, were burned to death, eighteen were killed by explosions of dynamite, powder and torpedoes, three by giant freerackers, three by cannon. Among the injured twenty-two became blind, seventy-two lost one eye, and fifty-six lost legs or arms or hands."

And all this for the joy of making a noise on a national holiday. The price is certainly a high one. If an epidemic of this sort were to sweep the country, it would be a terrible thing. They would fly to the doctors and attempt to shut out the contagion. But in this case they allow the "contagion" to be sold everywhere and do not sum up the deaths until the mischief is done.

If the mothers could vote on this gunpowder holiday they would banish it entirely. Many a mother heaves a long sigh of relief when the noisy day is over. She would have her children over, thank God, if she finds them whole. Then there are the sick and the invalids. A day of public rejoicing is a day of sleepless agony for them. It is literally well nigh "the death of them." When the darkness comes and they know that in an hour or so the last rocket will have whizzed into obscurity and the last startling explosion will have occurred, they feel an immense relief. Now sure, by some better way of celebrating anniversary might be had upon them by torturing the mothers and the sick.

### FREYBURG.

Parsonsfield boys beat Fryeburg Academy, 10 to 0.

Mrs. John Locke of Portland made a short visit in town.

Mrs. R. F. Chase and son of Boston are at Mrs. M. B. Barker's.

James P. Baxter and son James P., Jr. of Portland, have been in town.

Rev. B. N. Stone and Mrs. Stone are spending the month in Massachusetts.

Stuart Barrows and Mary visited their home over Sunday, returning to Boston, Tuesday.

Mrs. Frank Mark has returned from New York and opened her house on Elm street.

Mrs. Isadora Perkins has returned from Bryant Pond where she spent the winter with her daughter, Mrs. Rowe.

Susan Walker entertained the senior class of the academy at her camp on the shore of Lovewell's pond, Tuesday evening.

Mrs. A. H. Evans is visiting her daughter, Alice Evans, in Boston and Mrs. Charles Farrington in South Eastern, Mass.

The horse cars, still cherished by New York City and Fryeburg village, have emerged from winter quarters, and make their several trips to the railway station daily.

Benjamin T. Newman has an illustration in color in the June number of the School Arts Book. The subject is the Indian Pipe growing in its natural environment.

At the annual meeting of the Library club the following officers were elected: Pres.—Miss C. S. Weston. Sec.—Miss V. F. Fries. Librarian.—Miss E. P. Newman. Sec.—Mary Warren. Auditor.—Miss H. C. Osgood. Trustees.—Mary Gordon.

Mrs. Horace Annis has been ill but is better.

May Cross is at work for Mrs. D. R. Hastings.

Elva Kendall was at home from Gilead over Sunday.

George Green was down from Shelburne Sunday.

Bessie Goud has been visiting Mr. F. L. Edwards.

Frances Abbott, who has been attending school at Goud's Academy, has gone to her home.

Fannie Barker, who is working in Saco, spent the latter part of the week with her parents.

Mrs. A. G. Wiley, daughter Olive, and mother, Mrs. Mary Frost, are visiting.

Mrs. F. L. Edwards, F. L. Edwards, is visiting.

Dr. A. G. Wiley of Bar Mills came to Bethel in his auto for a few days fishing. He was accompanied by Charles Sargent.

Mrs. Oliver Gould and children from Portland and Mrs. John Wilson and children from Berlin have been visiting their father, William L. Chapman.

### EAST DENMARK.

Elmer Hale has bought a horse.

H. M. Moxey has had a cupola built on his largest barn.

Saturday was a great day for corn planting. Three planters were at work in this neighborhood.

Carpenters are at work on Riggs camp on the west side of Moose pond, which they will soon have completed.

C. E. Cobb has been doing a job on Moose pond bridge, raising it about three feet to accommodate his boat.

Mr. and Mrs. Daniel Ballard, Edward Abbott and Etta Penley of Bridgton visited Mr. and Mrs. Gardner Adams, Sunday.

DENMARK.

Mrs. Daniel Johnson is poorly.

### Manual Training

In the Schools a Preventative to Crime—

(An extract from an essay by J. B. Packard, a former Oxford County boy.)

The safeguard of a Republic lies in the education, intelligence and integrity of its citizens.

Our public schools are of great importance to us to-day as ever in our history, and they should be carefully protected and nourished. They should be kept abreast of the needs of the times, the great change in our population and in our social and industrial life calls for a change in the our educational system.

All great educators now claim that not only the mind but the hand should be trained, that the best interests of our industrial life demand industrial training and that in connection with our public school system, that our present system is doing a great injustice to a large number of our young people.

In spite of the fact that the value of hand work as a character builder has long been recognized in reformatory institutions, its significance as a powerful factor in the prevention of crime has not long been generally appreciated.

But if we carefully investigate the subject, we find the following facts, some of which are rather surprising:

The average criminal is not an old man nor a middle aged man, but a young man.

The first steps toward delinquency and crime are generally truancy and idleness. A delinquent is generally a truant because he must early become a self-supporting individual and he fails to see any connection between the school course he is pursuing and wage earning.

He is idle because he was obliged to leave school unprepared to face the conditions his life imposed.

The abolishment of the apprenticeship system removes for the most part the only opportunity for the boy to become a useful citizen and as evil offers alluring jobs of ease with pay from the start he becomes a criminal.

Our vast army of criminals are not an unskilled class but they are an unskilled class.

Every day we read of new, prime objects in education, but should not the first one be to discover each child's particular capabilities, which are unlike those of any other child, and develop them by exposing the child to an environment adapted to his activity, thus would every child become productive and contribute to the welfare of society.

A truth everywhere apparent but not always well understood is that the mere knowledge of right and wrong does not necessarily make a man do right, or deter him from doing wrong. Righteousness is really right action, not something to be merely believed, but something built in our nature with bricks of right habits and good deeds day by day.

Habit is one of nature's mighty forces and good habits are as easy to form, as hard to overcome, as bad ones. Sunlight in "Self-help" says "Self-help, self-help, application, industry, integrity, all are of the nature of habits, not beliefs."

Principles in facts are but the names which we assign to habits. For principles are not facts, but the habits are the things themselves, benefactors or tyrants as they are good or evil.

It thus happens that as we grow older a portion of our free activity becomes suspended in habit. Thus our actions become of the nature of fate and we are bound by the chain of habits we have woven around ourselves.

I believe the great cause of the social disorders which are prevalent in this country to-day arises from the fact that public system of education is all wrong. We are training one faculty and sacrificing others.

The remedy is to be found in a half-time school, where the student will be kept half a day at his books and taught some trade during the other half.

The half-time school system would arouse a feeling of respect for fellow workers.

Manual training in our public schools, hand training in our trade schools, hard work in our trade pursuits means the formation of character along those lines of habit.

Many prominent employers complain that the poorest recommendation a young man can bring them is his college diploma.

The fault lies in the fact that too much attention is paid to theory, while practical work, the thing most needed in the world, is almost overlooked.

Practical morality taught in such a way as to form good habits in the young is doubtless the surest preventative from a criminal career.

Perce says "That the business of education should be much more concerned with the habits children acquire with their wills rather than with their conscience. The latter is the blossom that will be followed by fruit but the former are the rooting branches."

Victor Hugo said "He who opens a school closes a prison." Many schools have been opened but no prisons closed. Criminality has not diminished, while education has increased.

In this connection it is interesting to note that in Japan, where such perfection in hand-work has been attained that the whole world marvels, there has been for twenty years a decrease in crime; and in Switzerland, where nearly every child is the abode of craftsman (father and son) and where hundreds of thousands of dollars have been expended for industrial schools, we find the world's greatest examples of integrity and honesty.

It is natural that a boy should love work. It is society's fault if he learns to hate it.

There is something in shaping iron, in sewing a garment, in starting an engine, in felling a tree, in turning wood that shapes a character and that binds one to truth and gives force to conviction of duty and makes a lasting impression in the Book of Life.

Finally there is such joy in good hand work that it permeates the whole being and precludes the possibility of crime.

Sir Charles Bell observes that the greatest source of happiness is found when the ingenuity of the mind is exercised in the dextrous employment of the hand.

And Meissner exclaims, "I have known glory and love, but never such joy as in hand work."

It is not to be learned that it is wiser and less expensive to save children than to punish criminals, and that it is better to spend one dollar for the cultivation of good citizenship than one hundred for the discouragement of the bad.

Give the boy an education but give him also the means of applying that education.

A fire caught under R. A. Grover's steam mill from a hot box. Quite a blaze was started. It was extinguished by fire extinguishers.

## BACKACHE

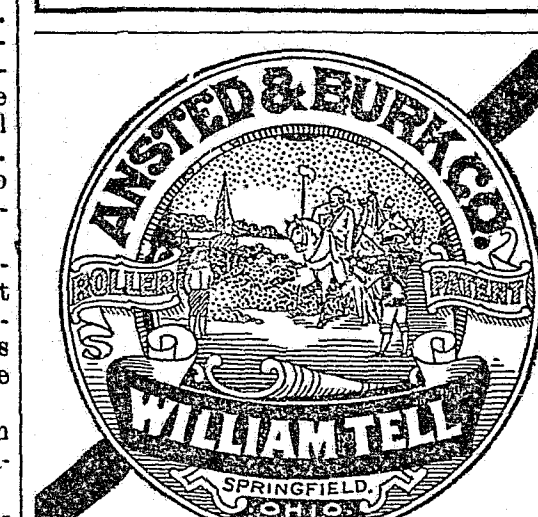

Indicates something wrong with the kidneys. They probably need toning up.

## KICKAPOO SACWA

can be recommended without hesitation as the finest kidney and liver tonic. Cleanses, tones up and strengthens. Trial convinces. All druggists.

FRIDAY, JUNE 18

and the THIRD FRIDAY of each following month.

All Glasses warranted satisfactory or money refunded.

Home Office: 24-26

31 LISBON ST., LEWISTON

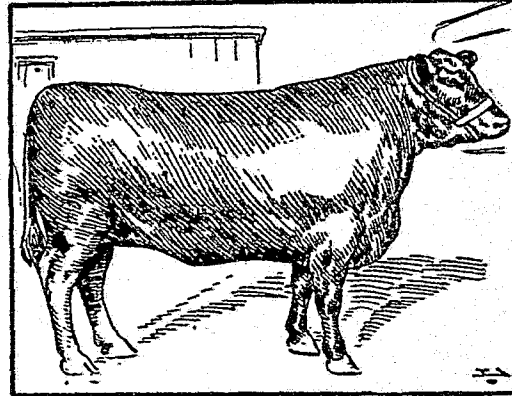

**HEBRON.**  
There are several cases of measles in town.  
School in district No. 5 closed Friday the remaining schools close this week.  
The Z. L. Packard, W. R. C., No. 92, met Friday afternoon for a regular meeting. One application was sent in.  
The ladies' circle met Tuesday after-

noon and evening for a picnic supper. It was the last supper before the summer vacation.  
Mrs. Blanche Merrill, Mrs. Abbie Marshall, Mrs. Emma Sturtevant and Mrs. Ella Bearse attended the W. R. C. convention in Portland, Wednesday and Thursday. C. H. George attended the G. A. R. encampment at the same time and place.

### PURE BRED ANGUS CATTLE.

Charles E. Sutton, a successful breeder of pure bred Anguses, says of these cattle: Our experience with this breed covers a period of twenty years. We started our herd in 1888, and like many people, believed good cattle must be red. So we selected Shorthorns—good ones. My uncle on an adjoining ranch preferred Herefords and purchased four fine imported bulls at a long price. Our ranches were located only fourteen miles from that of George Grant, the first importer of Angus cattle to America. In purchasing

A PURE BRED ANGUS.

our young steers in the fall we chanced to get quite a few blacks sired by his bulls. Spring found these doddies in better condition than the other cattle. They were the first to reach the feed rack in the morning and the last to leave the feed at night regardless of weather. Fall found them fat and fine, and, being hornless, we decided to try them.

So in 1887 we purchased two imported heifers and a bull and from this small beginning have continued to increase our pure bred herd until now it numbers nearly 200. In the meantime we used the pure bred bulls on our Shorthorn cows. This proved a great cross, the offspring being black and hornless, with fine size and quality, frequently weighing over 500 pounds on the average at weaning time and selling at \$5.50 per hundredweight on the farm. We are thoroughly convinced that we made no mistake in this selection, and a number of our neighbors think the same way, as there are now about thirty of them using pure bred Angus bulls.

An enumeration of a few of their good qualities may not be out of place. A pure bred—Angus bull—dehorned calves and makes them of one color and type. The calves when dropped are very small, making the light light in calving and especially in heifers. They are prolific. Our imported heifers never missed a calf in fifteen years, and they are good mothers and sucklers. They weigh equal to the Shorthorn and heavier than the Hereford under the same conditions. Flies do not bother them as they do red cattle. The carcasses are well proportioned, carrying a high proportion of weight in the valuable cuts. The ideal beef carcass is one very rich in lean, with plenty of fat marbled through it and with but one-half inch of outside fat even spread over the carcass. Our breed possesses as great hardness and ruggedness as are possessed by any breed. It has been bred from the outset for early maturity and good feeding qualities and may be fairly said to possess these desired attributes in as high degree as any breed. To all these, which the Angus has contributed in common with the other breeds, it has also brought in somewhat greater wealth of flesh element than any breed on earth.

### NEW TYPE OF ROAD.

Combination of Brick and Concrete With Sand to Distribute Pressure. With contract work about to begin on millions of dollars' worth of new roads in New York state there is naturally much curiosity as to whether or not any new ideas in construction will be tried. The state engineer's recent report indicates that the ordinary macadam does not last well under the impact and friction of automobile traffic, which is rapidly increasing, and roads well suited for the demands of a decade ago fail to give satisfaction proportionate with their cost under modern conditions.

It is improbable that the ideal form of construction has been discovered, although the existing methods are very numerous. A Brooklyn inventor claims to have embodied scientific ideas in a form of road for which he has been granted patents and for which he makes strong claims. It has a surface of paving brick block joined with cement and supported by large blocks of concrete. Through each block run several vertical holes, and in these, according to the inventor, lies the virtue of the idea.

The holes are filled with sharp sand, and between the brick surface and the supporting blocks is placed an inch layer of sand. This road, it is held, cannot be broken down. The sand distributes pressure upon the surface against the sides of the holes instead of vertically. Drawing moisture from the ground, it will present a springy, elastic base, for which a life of many years is anticipated. The new road has many other advantages—in theory, at least. It is probable that an offer will be made to give an actual illustration of its value to those interested in the construction of new state highways.

### Questions and Answers.

What tree bears the most fruit to market? The apple tree.  
Why is a bank clerk well informed? Because he is continually taking notes.  
Use me, well and I'm everybody.  
Scratch my back and I'm nobody.  
What am I? A looking glass.  
What great Scotchman would you name if a footman knocked at your door? John Knox.

**LOVELL CENTER.**  
Mrs. Althea Brooks of S. P. has been visiting her parental home.  
Prof. Chubb and family arrived at their summer home, Saturday.  
We had lettuce and radishes from G. H. Cushman's garden, June 13.  
Elizabeth Stark of Cambridge, Mass., spent a few days in Lovell, last week.  
One of Lovell's own sons gave the Memorial address—Col. A. J. Stearns of Norway.

Mr. Kneeland and his daughter, Mrs. Mason, spent Sunday and Memorial day here.  
Truman Stearns took his mother, brother, and Carl and Percy Farham to Norway in his auto, Friday.  
Harry Gary and his brother-in-law, a Mr. Curtis of Boston was at Mell Estate on a fishing trip.

Mrs. Lewis D. Hill and children are at G. A. Kimball's until Mr. Hill comes, when they will go to their camp.  
Sunday, June 13, the P. of H. met in a body at the Congregational church where Rev. Mr. Reeves gave them an address.

The York and Cumberland Conferences of Christian churches met here June 9-9. A much smaller delegation than usual, but more than one hundred took dinner at the vestry, Sunday.  
Sunday, May 30, Rev. J. W. Card gave an address to the I. O. O. F. at the Christian church. In the afternoon Rev. Mr. Reeves spoke to the G. A. R. at the Congregational church.

Children's day was observed at the Christian church, June 13, by an appropriate sermon by the pastor and music by the young people. Mrs. L. L. Stearns presided at the piano. Don and Alice played the violin. Songs were sung by Theona Farrington and Myron Kimball.

**WEST STONEHAM.**  
J. C. Sawyer picked some nice ripe strawberries, Sunday.  
Lyman Hilton visited friends in Lewiston a few days, last week.

Ethel Adams is working for Mrs. Moses Grover of East Stoneham.  
Most of the farmers have got their planting done and some have hoed their gardens.

Josie Adams has been helping Mrs. Lyman Hilton with her housework, the past week.  
Zeno Fontaine had the misfortune to have one of his cows get her leg broken one day last week.

Beryl McKee, who has been attending school at Norway is at home on her summer's vacation.  
Mrs. J. C. Sawyer recently visited her daughter, Mrs. Maud McAllister of North Waterford a few days.

Mr. and Mrs. Wilbonger and daughter Annie of Roxbury, Mass., have moved into the "Hut" for the summer.  
Mrs. Bertha Keniston and five children of Lovell visited her parental home, Saturday, and returned, home, Sunday.

Our road commissioner, L. G. McKee of East Stoneham, with a crew of men is now repairing the roads the past week.  
Mr. and Mrs. Herbert Adams and little son Roger visited her parents, Mr. and Mrs. James Frost of Norway, a few days last week.

Mr. and Mrs. S. C. Sawyer had the pleasure of entertaining their cousin, Mr. and Mrs. Perley Meese of North Lovell, one day last week.  
Horace McKee and son Fred and a friend of Hyde Park, Mass., have been camping in this vicinity on a fishing trip. Mr. McKee was an old resident of this place.

**BOLSTER'S MILLS.**  
Mrs. Howard Hutchinson is visiting A. R. Charles.  
Geo. Dorman of Auburn is visiting relatives here.

Fred Greene, wife and baby of Harrison visited at Fred Weston's on Sunday.  
Lizzie Edwards has gone to North Norway to visit her sister, Mrs. C. G. French.

Mr. and Mrs. Wm. Jones have been up from Auburn stopping at their home here for a few days.  
The Bolster's Mills B. B. boys went to Harrison and played with the local club, last Saturday afternoon. They were defeated.

The Rev. C. B. Wentworth of the Methodist church in Norway will preach in the church here, Sunday next, June 20, at 8 o'clock.  
Elmvale Chapter, O. E. S. was represented at the Grand Chapter in Lewiston by the M. W. Mrs. Rita Lamb. She gave a report of the meeting to the local chapter at the last session. A brief program was enjoyed and one new name received.

**NORTHEAST LOVELL.**  
Vernise Harriman is working on the road.  
Eli Barnes is working at Rattlesnake Island.

Enos Kimball called at Eli Barnes' on Saturday.  
Enos Kimball sold a nice veal calf to Otis Gilman.

Reginald Pottle has his house nearly ready to plaster.  
Herbert Harriman has finished sawing lumber at his mill.

Roland Taylor has been confined to the house a few days with a cold.  
Sidney Hatch, wife and two children visited at Herbert Taylor's, Sunday, the 13th.

Herbert Harriman has gone to Chatham, N. H., to work for J. L. Binford in his mill.  
Road commissioner Brackett and a crew of men are repairing the roads in this section.

Mrs. S. F. Kimball is visiting her father at Albany. She will visit in Norway before she returns.  
Sadie E. Kimball, who has been working at A. Kead's at the village, is home on a short vacation.

**EAST OXFORD.**  
Prof. A. F. Caldwell spent a few days, last week, in Boston.  
Johnnie Heikinen was at his home in West Paris, Sunday.

Frank Bimpus of South Paris was at his sister's, Mrs. J. P. Penley's, last Sunday.  
C. M. Billings and wife of Waterford visited at his brother's, P. J. Billings, last week.

P. J. Billings and daughter Alza visited his nieces, Mrs. Jack Smith, Mrs. John Wood and Mrs. Nellie Jordan, at Norway Lake, Sunday.

**OXFORD.**  
Pythian Memorial Services.  
Craigie Lodge No. 121, Knights of Pythias, and Pythian Temple No. 41, Pythian Sisters jointly observed Sunday, June 13, as Decoration Day. The two orders met in S. of T. hall and at 1.30 marched to Oxford Cemetery where the Pythian service in memory of the dead were performed. At close of service the Pythian ranks were opened and the Sisters passed through to the grave of their dead sister, and their beautiful memorial service was rendered.

The line of march was again taken up to Riverside cemetery and the Pythian service repeated. The orders then entered and taking places upon the stage, the Knights marching directly to S. of T. Hall. After a short wait the Knights formed in line and marched to hall below taking seats in the triangle reserved for them in the body of the hall. The officers followed, taking their proper positions around the hall.

The meeting was called to order and lodge opened in special convention. The full and impressive Pythian memorial service was rendered.  
Rev. Charles Cummings of Auburn, a Pythian Knight, delivered the address. Brother Cummings is no stranger in this town and his remarks were listened to with pleasure and close attention. The orator brought out many points of Pythian interest, and as he progressed in his remarks the fact was made apparent that not only the members of the orders but the entire audience was in sympathy with him. At close of service many of Mr. Cummings' former friends came in for a hearty hand shake and pleasant greeting.

Music was furnished by a double mixed quartet. Their selections were of the best and were a decided addition to the interest of the occasion, and helped materially to make the service a success. The members of Craigie Lodge appreciate the services rendered by the members of the choir at the services, also the interest manifested by the public in attending the services. And we trust that each and every one present returned to their homes satisfied that they had received some benefit.

**Concert and Ball.**  
The concert and ball for the benefit of the senior class, '09, O. H. S., was held in Robinson Hall, Wednesday evening, June 9.  
Music for concert and ball was furnished by Colby College Orchestra, seven pieces, and those who attended certainly got their money's worth as the music was of high order, and people who had not danced for years could not resist the temptation. At close of concert the graduating class were presented with the diplomas.

Several gallons of "Jones' best" ice cream were dispensed during the evening, and it was a late hour when the merry party broke up.

Mrs. Lillian Parrott made a business trip to Portland, Friday.  
Mr. and Mrs. Richard Pye visited Mr. and Mrs. George H. Jones, Sunday.

Craigie Lodge, K. of P., worked the rank of Esquire upon two candidates, last Tuesday night.

Jessie Martin of Boston visited her mother, last week, and returned, Saturday morning.

Orrington Cummings of Norway attended the Pythian Memorial services of Craigie Lodge, Sunday, the 13th.

The Saturday night dances continue to be well patronized, about twenty-five couples attending the night of the 12th.

Oxford Pomona will meet with Oxford Grange Tuesday, June 27. The lady officers of the Grange have their appointed committee to prepare the dinner.

All pupils from the rural schools who complete studies at school this fall, will present themselves for examination at the high school room, Saturday, June 19, at 2 p. m.

Charles Parrott and friend, Mr. Clark, of Lynn, Mass., are at their camp on the shore of Lake Umbagog for a two weeks' stay. Extensive repairs have been made upon their camp and it is now in comfortable condition for a prolonged stay.

**Oxford Association of Universalists.**  
The Oxford association of Universalist churches, meets at Bethel, June 23 and 24, and the meeting opens at 10 a. m. Wednesday, and closes at 4 p. m. Thursday. The program is a very attractive one, and a large number from the local parish are planning to attend.

Various topics vital to church interests and religious life, will be discussed by all speakers. The Bethel parish extends hearty welcome to all who can come. Program:  
General theme: The ideal and the real in the church of to-day.

Wednesday a. m.  
10.30 Registration of delegates.  
11.00 Call to order.  
Prayer. Rev. Oluf Tanderberg, Bethel, N. H. Welcome and president's address.  
Response. V. Pres. C. F. Riddon, Norway. Appointment of session committees.  
Afternoon.  
1.30 Song service.  
Led by Rev. I. P. Coddington, Gorham.

1.45 Address.  
Rev. C. A. Knickerbocker, Paris Hill.

2.15 Address, What the spirit is doing in the churches.  
Rev. M. C. Ward, Norway.

2.45 Open forum.  
Evening.  
7.00 Song service.  
Led by Rev. G. W. Sias, Waterford.

7.30 Sermon, Men and the church.  
Rev. H. A. Rastley, Turner Center.

Holy Communion.  
Rev. J. H. Lyle, Turner Center.

8.30 Conference meeting.  
Led by Rev. A. M. Smith, Brownfield.

9.15 In Memoriam to Kilborn Perham and J. H. Barrows.  
Addresses.  
Rev. J. H. Little, E. C. Park, Rev. I. S. Macduff.

11.00 Address, The W. M. M.  
Rev. I. S. Macduff, West Paris.

11.30 Echoes from the Maine State convention.  
Afternoon.  
1.30 Song service.  
Rev. Carl E. Peterson, Bridgton.

1.45 Address, The aim and purpose of Bible study.  
Rev. W. E. Gaskin.

2.15 Address, Teaching the Bible.  
Rev. C. F. King, Portland.

2.45 Open forum.  
Rev. M. C. Ward, Norway.

3.15 Closing service.  
The Bethel parish welcomes all and will provide lodging and refreshment; other meals will be served at retail rates.  
The Grand Trunk Railway will sell round trip tickets at special rates from Lewiston and way points also from Berlin, N. H., and way points, to Bethel and return.  
Apply once for entertainment to E. C. Park, Bethel.

## Sunny Southern Alberta

### "The Last Best West."

Today, in the Lethbridge wheat section of the Canadian Northwest, is in truth the golden agricultural opportunity of a decade—a superlatively rich "land" of great area where crops, especially of winter wheat, can be grown with immense profit. Today this land can be bought at about \$16 an acre; a few years later the same land cannot be had for \$50 an acre, according to conservative estimates. See what happens here! W. E. Ballock, without doing a stroke of the work connected with planting, harvesting or transporting his wheat, netted over \$20.00 per acre on his winter crop. T. H. Woolford produced 6,000 bushels of wheat on 100 acres, receiving \$3.00, and netting \$2,900 or \$29.00 per acre. "And there are others."

### If You Want A Share In Such Big Profits—Listen!

Through syndicate farming, a group of men can "join forces" with a little cash capital from each man, buy an undeveloped section of this famous Alberta country, and in a few years make big returns on the money invested. I have already formed one syndicate which will devote 960 acres to "ALBERTA RED" this year, the big paying winter wheat; I am now forming another syndicate which if prompt in its completion and action, can acquire as fine wheat land as there is in ALBERTA, at the present low price. HERE IS YOUR OPPORTUNITY! "The best security on earth is the earth itself"; ALBERTA earth has immense paying possibilities. For full particulars, prices, etc., write AT ONCE to

I. A. SUTHERLAND, 45 EXCHANGE BLDG., BANGOR, MAINE.

We are soon to make a land-seekers' excursion to ALBERTA; act now; be one of the party. 25-28

### ALBANY.

Guy Johnson went to Oxford Saturday, returning Sunday.

Leslie Cummings has returned home from work in Oxford.

William C. Grover of Harrison, was in town on business Monday.

Frank Bean and wife of Oxford, visited relatives in town one day this week.

Many from town, attended the graduation at Gould's Academy last Thursday.

Miss Dunham of Mason, is spending a few days with Mrs. W. E. Cummings who is ill.

Nina Bean, who has completed a year's work as teacher in Mexico, has returned home.

Herman Cummings, who has completed a year's work at Gould's Academy, has returned home.

Mr. and Mrs. Skule, son and daughter of Atlanta, Georgia, are guests of Mr. and Mrs. Abel Andrews.

Eugene Prescott and wife of Livermore Falls, visited Mr. and Mrs. Abel Andrews, Saturday and Sunday.

### Valley Road

Mrs. Myra and Ada Lord were in Bethel one day, last week.

Mr. and Mrs. J. F. Gupitll were in Portland one day, last week.

Mr. and Mrs. Elliott Rich and son Harold of Bethel were at F. G. Sloan's, Sunday.

Arthur D. Bean, who has been working at Farmington, is visiting his sister, Estelle Bean.

There will be services at the Town House each Sunday at 7.30 p. m. Everyone is cordially invited.

### Corn Shop Burned.

At Farmington, Saturday June 12, corn shop No. 8, owned by Burnham & Morrill of Portland, was almost totally destroyed by fire together with 750,000 cans which had been made up in readiness for the season's pack. The loss was estimated at \$50,000; insured. The gasoline supply exploded during the fire but no one was injured.

**"Arouse Yourselves, O People!"**  
When the people of this country become thoroughly aroused on the subject, they will drop many of the petty reforms in which they are now taking more or less interest, and they will demand one great reform, demand that a punishment fitting to the crime of gambling in food, be established by law and enforced without favor.

Here is what the writer in Human Life says of the man whom we consider inhuman, the robber of the poor, who is said to be responsible for the rise of \$2.00 a barrel in flour.

O. P. Brooks buys hides and skins for cash.  
We solicit your order for fish of all kinds. Lobsters Friday and Saturday. O. P. Brooks.

We want to buy some good native beef. Call, write or telephone. O. P. Brooks.

Fresh mackerel constantly on hand. Don't fail to get some. Farmers when in town call and get some fresh mackerel. The price is cheap. O. P. Brooks.  
Fresh mackerel have come at last and the price is right. Leave orders at the store, hail our driver or call us by telephone. O. P. Brooks.  
A large quantity of fancy halibut just received. Price is cheap. O. P. Brooks.  
If meats are high, why not eat fish? We can supply you with either. O. P. Brooks.  
Bring your fat hens and setting hens to O. P. Brooks will pay you 11 cents per lb.

Madeline K. Nevers, Doris L. Shepard,  
Harold H. Wood.

The children have kept a flower list during the spring term and have found 70 different kinds of flowers not including trees and grasses. Each child has kept an individual bird list, several have reported over 80 birds on their list. Those having the most are:

Albert Bartlett, Francis Andrews,  
Clara Burgess, Stanley True,  
Gerald Smith, Frank LaFrance.

Grade Seven Melvin Green, teacher. Number of pupils registered 37; average number 35.3.

Pupils promoted Eighth Grade:  
Donald J. Andrews, Marion L. Bangs,  
Alfred R. Bartlett, Ralph O. Briggs,  
Howard L. Chick, Francis A. Chaudet,  
Mildred L. Curtis, Bernard D. French,  
Gerald F. Elliott, Arthur E. Goss,  
Alta Hall, E. Floyd Haskell,  
Lila B. Hutchins,  
Jacob H. Harriman, Joseph F. LaFrance,  
Christine Leavitt, Green Locke,  
Gerald W. McDaniels,  
Clarence A. Parker, Clara B. Shepard,  
Beatrice Stone, F. Leroy Snow,  
Clyde Stinson, Dorothy J. Truman,  
James W. Welch, Ethel G. McKen.

Pupils absent only one-half day:  
Francis A. Chaudet, Arthur L. Gammon,  
Pupils absent only one day:  
James W. Welch, Clara B. Shepard,  
Alta Hall, Ethel G. McKen,  
Joseph F. LaFrance, Lila B. Hutchins,  
Linwood Fogg.

Pupils not absent one-half day:  
Donald J. Andrews, Marion L. Bangs,  
Alfred R. Bartlett, Ralph O. Briggs,  
Howard L. Chick, Francis A. Chaudet,  
Mildred L. Curtis, Bernard D. French,  
Gerald F. Elliott, Arthur E. Goss,  
Alta Hall, E. Floyd Haskell,  
Lila B. Hutchins,  
Jacob H. Harriman, Joseph F. LaFrance,  
Christine Leavitt, Green Locke,  
Gerald W. McDaniels,  
Clarence A. Parker, Clara B. Shepard,  
Beatrice Stone, F. Leroy Snow,  
Clyde Stinson, Dorothy J. Truman,  
James W. Welch, Ethel G. McKen.

Number of birds seen and identified by pupils in Grade Seven are 120.

Number of wild flowers seen and identified by Grade Seven are as follows:

Mayflower, Hepatica,  
Bloodroot, Anemone,  
Dandelion, Scouting Rush,  
Adder's Tongue, White Violet,  
Bracted Cassandra, Bellwort,  
Wood Anemone, Early Eveningstar,  
Marsh Marigold, Gold Tuberose,  
Pearly Everlasting, Scabious, Bluebell,  
Twisted Stalk, Painted Trillium,  
Crownwort, Blueberry,  
Correll, Chionodoxa,  
White Baneberry, Swamp Honeysuckle,  
Columbine, Star Flower,  
Solomon's Seal, Saxifrage,  
Saxifrage, Wood Sorrel,  
Shepherd's Purse, Corydalis,  
Sweet Clover, Milkweed,  
White Chionodoxa, Pringled Polygala,  
Toothsawgrass, Labrador Tea,  
Chocolate Plant, Bush Honeysuckle.

Eighth Grade, Celia L. Abbott, teacher. Number of pupils registered 24; average attendance 22.47. Number of pupils present every day throughout the year, one:

Harold M. Thomas.  
Pupils missing only one day throughout year:  
Josie Chase, Richard J. Stiles.  
Pupils not absent one-half day during the term:  
Harold Thomas, William McDaniels.

Pupils absent only one day:  
Mona A. Russell, Josie M. Chase,  
Philip Foss, Marguerite Truman,  
Horace Schanz, Oscar A. Cleveland,  
Charles W. Clark, Marion E. Haskell,  
Aimee F. Kilgore, William H. Lasselie,  
Merle A. Russell, Blanche M. Scribner,  
Clarence V. Stevens, Anna K. Shepard,  
Richard J. Stiles, Marguerite M. Truman,  
Harold M. Thomas, Philip G. Young.

The bird list kept by the grade numbered 124, at the close of the term. A good list of flowers was also found.

Pupils promoted to Grade Nine:

Ruth Cummings, Josie M. Chase,  
James Cleveland, Oscar A. Cleveland,  
Charles W. Clark, Marion E. Haskell,  
Aimee F. Kilgore, William H. Lasselie,  
Merle A. Russell, Blanche M. Scribner,  
Clarence V. Stevens, Anna K. Shepard,  
Richard J. Stiles, Marguerite M. Truman,  
Harold M. Thomas, Philip G. Young.

Grade Nine Harriet, teacher. Whole number of pupils registered 20; average attendance 24.6; average attendance 23.6.

Perfect attendance for spring term:  
Ava M. Andrews, Vera Hall,  
Clayton E. Heath, Cifton G. Cameron,  
Roland S. Nevers, Katie Ward.

Of the above list the following have had perfect attendance for the entire school year of 34 weeks:

Vera Hall, Roland S. Nevers,  
Katie Ward.  
Bessie E. Brown has been absent 2 1/2 days in the year, Clayton E. Heath 2 1/2 days and Earl Stearn 2 days.

In Nature History the class has studied local minerals, the spinning moths and the birds of Oxford county. The general bird list beginning January 1 and closing June 11, includes 180 different birds observed and identified by a class of 24 pupils. In lists kept by individual pupils John E. Shepard numbered 102, Katie Ward numbered 95. Other individual lists came up to 75 and 80 birds.

Ava Watson will work at Restdale this summer.

Don C. Seitz of New York came to Norway, Friday morning, for a week with his Norway friends. He is at his classmate's in the Norway High school, Dr. B. F. Bradbury's, and they had planned a trip in the Norway auto to Umbagog Lake to take up part of the week. He was able to be here this year to the graduation of the Norway High school, but unfortunately there were no public exercises. Elmer H. Hussey reported the Dr. C. Seitz prize auto to be the highest rank during the four years' course. This was the first time a boy student had ever received it. Mr. Hussey was able to thank the donor personally for the prize, something that none of the former recipients have been able to do. Mr. Seitz expressed himself as pleased that a young man had been able to secure it, though he was equally as willing it should go to a girl if they had earned it by the highest rank.

# YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Rockland, Maine.—"I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to my friends."—Mrs. WILL YOUNG, 6 Columbia Avenue, Rockland, Me.

Backache is a symptom of female weakness or derangement. If you have backache do not neglect it. It is a permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health free of charge.

Radcliffe Bagged

Another One.

Bryant Pond and Radcliffe lined up on the Fair Grounds last Saturday afternoon for their second highly anticipated season, and the contest proved interesting from start to finish for the reason that his, speedy base running, errors and freak catches all came in doses which about satisfy even the most delicate constitution.

Bryant Pond started the show in the first inning with a lively overture by the whole company; giving the Norway force a sudden jolt when three runs were scored in the first inning, all on account of clean hits by Jimmy and Fred Farnum and a tincture of three Radcliffe errors in the fielding positions.

Radcliffe evened things up in their first batting attack when young David Lauen smashed a two-bagger, and Lowell a single which brought along two runs as a lucky omen. Radcliffe again boosted the scores in their first inning and forged ahead of their wily opponents by scoring three runs in the second.

There was nothing more doing on either side until the seventh, then Bryant Pond set up a hot and lively overture and a broadside fire against "Uncle" Bill and his followers. Patten was the first man up and he dove a hot muffin right at "Uncle" Bill's off foot, the ball bounded away from the fatty cushion and hit out on the line. One leg was sent in on a line to Gammon, who gave a miff, Cookson followed with a neat butt and was safe at first. Richardson came next and hit toward "The" but a fumble with the accompanying hesitation placed this batter out on the second strike base. Jimmy Farnum, the slugger, came up for his third hit for the day and scored the two runs which leveled things nicely, tying the score 5 to 5. Richardson came within a small fraction of the home plate in a close decision, which raised a loud wail of protest from the visitors.

Radcliffe squeezed in their winning run in the eighth after two men were out and the third came in on a line just off of right field; reached second safely on Patten's miff of a throw trying to cut off Bonnier; then scored on Harrison's timely single. This ended the run getting for all concerned and clinched the game for the home team.

For Bryant Pond the Farnum brothers were gratified in evidence at the bat. Fred secured two pretty singles and Jimmy captured three, which wasn't too bad. In fact every player topped the batting list for the home team.

Richardson pitched a good game even though bumped hard. He remained cool throughout the game and shows improvement over last season.

The Radcliffe bunch also put up a good base ball. At the bat Lauen carried off two singles and a double; King secured three singles; Leith and Lowell bagged two singles and a double; Harrison and Gammon each worked out a hit at critical times when such things were exceedingly proper.

Frank Lauen caught a splendid game besides making fancy throws to second and third for out-outs on "Uncle" and "The" but he placed a short hit against them, but hits were kept down close by the opposing team, yet errors at critical times figured conspicuously in run getting.

George Howe presented a neat catch back of third base in the side line and which was well, done and secured a good hand from interested spectators.

Richardson pitched a good game even though bumped hard. He remained cool throughout the game and shows improvement over last season.

George Howe presented a neat catch back of third base in the side line and which was well, done and secured a good hand from interested spectators.

King in the right garden secured two put outs, the last one coming in the ninth when he made a left handed stab, pulling to earth a high-binder which took from Cookson a sure single and might have changed the complexion of the score.

The score:

|              | Radcliffe | Bryant Pond |
|--------------|-----------|-------------|
| Harrison, ss | 4         | 0           |
| Young, 3b    | 1         | 0           |
| Lauen, c     | 1         | 0           |
| Leith, p     | 1         | 0           |

Radcliffe Players Standing:

All followers of the game may be interested in the record of the Radcliffe player to date. Thus far the team has warmed up in six games and won each contest. Their first offering was with Hebron (town team) May 15, the score being 3 to 1; May 22, they routed the Lewiston team 7 to 0.

May 21, Radcliffe defeated Hebron in the forenoon 5 to 4, in the afternoon they clashed with Bryant Pond, winning 4 to 0; June 5, Lewiston A. O. H. fell in a five inning whirl 9 to 0, and June 12 was defeated the second time 6 to 3.

The following is the individual schedule to date:

|               | g | ab | r | h | b  | h  | po | a | l | b | so |
|---------------|---|----|---|---|----|----|----|---|---|---|----|
| Harrison, ss  | 6 | 23 | 3 | 6 | 8  | 3  | 12 | 4 | 0 | 6 | 5  |
| Young, 3b     | 5 | 19 | 7 | 8 | 12 | 27 | 9  | 0 | 6 | 0 |    |
| Lauen, c      | 5 | 19 | 7 | 8 | 12 | 27 | 9  | 0 | 6 | 0 |    |
| Leith, p      | 5 | 19 | 7 | 8 | 12 | 27 | 9  | 0 | 6 | 0 |    |
| Lowell, 2b    | 5 | 19 | 7 | 8 | 12 | 27 | 9  | 0 | 6 | 0 |    |

The first discovery of the gem in the  
State dates back as far as 1820. In the  
summer of that year a transparent green  
crystal was found among the dull feld-  
spar and quartz on a hill, afterward  
called Mt. Mica, in Paris, Oxford county,  
by two students attracted to the spot as  
being of mineralogical interest. Their  
first search, however, was fruitless. Their  
assertion, rewarded them with thirty or  
more splendid pink and green crystals.  
And more than this, all up and down the  
hillside lay quantities of the associated  
minerals.

When the discovery was noised abroad  
people hastened to the hill and many  
valuable specimens were found but no  
one knew what they were. Some of the  
best crystals were sent to an eminent  
chemist and mineralogist, who pro-  
ceeded to examine them. He found them  
to be tourmalines, and informed them  
that a most important discovery  
had been made.

In a desultory way and with primitive  
methods, the ledge was mined up to  
1865, when it was thought the deposit  
was exhausted, although the work had  
been extremely superficial, the excava-  
tions being only 15 feet square and 6 feet  
deep. However investigations went on,  
for the subject had too many fascinations  
to be dropped, and with more scientific  
methods more pockets were opened, and  
crystals found lying loose in the decay-  
ing feldspar, or imbedded in the floor of  
the cavity.

Many of those found their way into  
public and private collections, and some  
were hoarded in the homes of the near-  
by inhabitants, but a few were secured  
by lapidaries and cut. The history of the  
tourmaline up to this time is woven  
with the folk-lore of the old town.

About this time Dr. A. C. Hamlin, a  
Maine man of scientific tastes and ac-  
quirements, became interested in the  
accounts of the mining of gems in Paris,  
and proceeded to make important ex-  
plorations which added greatly to the  
knowledge of the capacities of the ledge.  
His excavations yielded him one of the  
most valuable collections of gems in the  
world.

The celebrated Hamlin necklace cut  
from the tourmaline crystals of Mt.  
Mica, and set by the best lapidaries,  
may truly be said without exaggeration,  
to be one of the gem wonders of the  
world. This is the superlative product of  
one of the "rock-ribbed and ancient"  
hills of Maine. Work is still being  
pushed there, with varying success in  
bringing to the light of day these won-  
derful creations of form and color. The  
rapidity with which the tourmaline has  
come into popularity is one of the mar-  
vels of the time, but it is not a birth-  
right of one—It is as handsome as a  
master of workmen to those who are  
acquainted with the beauty of the gem.

All who have been led by sentiment or  
other motives to invest in them are de-  
lighted. Says a Western lady, formerly  
of Maine, who received recently a birth-  
day gift of one—It is as handsome as a  
master of workmen to those who are  
acquainted with the beauty of the gem.

It is a significant fact that the produc-  
tion per year in the United States has  
grown from \$3,000 worth in 1894 to  
\$100,000 the next year. And it may be  
remarked in this connection that the  
average Maine tourmaline brings double  
the price of those of California.

Mt. Apatite, near Auburn, is named  
for the mineral found there, and is consid-  
ered. Very valuable gems  
have been mined there of all colors in  
which the tourmaline reveals. The finest  
of the associated minerals there are  
beryl and smoky quartz, or topaz crystals  
the last being found in striking shades  
from a clear amber to a rich, deep  
brown. The beryl is often clear enough  
to cut into gems called aquamarines,  
that rival the tourmaline in the estima-  
tion of some.

Two women of the neighborhood  
located a pocket of smoky quartz crys-  
tals after some miners had abandoned  
the situation. This find alone yielded  
\$1,000 worth of beautiful specimens,  
some of them perfect tourmalines and  
very large.

Feldspar is mined in such quantities  
and of such quality that it is marketed  
to be manufactured into some of the  
finest porcelain ware of the country.  
Other minerals found are black tourma-  
line, the curious curved mica, the lithia  
mica of a purple tint or lepidolite, all of  
which are eagerly sought for by collectors.

Harvard museum has some of the  
Apatite crystals which are the peerless  
of their kind. But the matchless tourma-  
line leads them all! It is especially  
interesting from having electrical quali-  
ties and from its strange and mysterious  
play of colors. In some of the gems  
two distinct and brilliant hues can be  
seen by a turn of the wrist.

Says a recent writer who has made  
them a study: "Some of the crystals  
show a splendid crimson hue, but when  
the gem is turned the red disappears and  
it becomes white or smoky in appear-  
ance."

"Another crystal presents a deep sea  
green color when seen transversely, but  
the shade vanishes when looked at from  
a different position, and the same stone  
shows a clear blue of heaven. The gem is  
erratic in this respect for they do not all  
have this property."

"Now and then we find a crystal that  
presents the same shade of color no mat-  
ter which way it may be turned to the  
light. Of course these are less valuable  
than those having the changeable hues,  
but all are valuable."

The same authority says that a fine  
green tourmaline readily commands from  
\$20 to \$30 per carat and the demand can-  
not be supplied at the price.  
In its physical properties the tourma-  
line crystal is a three or six sided prism,  
with rhombohedral terminations, but  
often showing rounded or angular faces.  
The tourmaline has a tendency in  
due, say the scientists, to a tendency in  
the forming crystal to make two planes  
at the same time. The crystal when  
heated exhibits electric polarity.

In variation of color the Maine tour-  
maline leads the world.  
The greater part of the yield of gems  
is marketed for jewelry purposes, bring-  
ing from about \$3 to \$25 per carat, ac-  
cording to quality and color, and there is  
scarcely a large diamond or lapidary  
house in this country that has not de-  
manded some of the Maine product. There  
is a largely increased local demand for  
Maine gems, and for the last few years it  
has about equaled the supply, miners  
receiving better prices in the home mar-  
kets than through shipments to whole-  
sale dealers. The gems are also out and  
set in Maine.

Norway has among its dealers in gems  
the well known firm of Bickford Bros.  
They have their own lapidary and fur-  
nish gems like the tourmaline, beryl,  
amethyst, topaz, smoky topaz, etc., with  
their own special cutting.

Freeland Howe, Jr., is another Norway  
man who has made a success in dealing  
in gems and should you ask him he will  
take a case from his pocket that will

# **make a lover of gems long to possess one.**

J. H. Fletcher is another Norway  
lapidary and dealer in Maine gems.

George R. Howe has a fine collection  
of Maine gems and minerals.

It is said people who know, have little  
trouble in mining gems in this gem belt  
but don't think you can go out and pick  
up a handful, or will find them so  
plentiful that they will cease to be of  
interest.

Aside from the well known stones that  
have been found in the Maine gem belt,  
others now to science have been discov-  
ered, minerals which, as far as known,  
cannot be found anywhere else in the  
world. Some of these have been given  
names that will forever identify them  
with the State. One of these has been  
called Hamlinite, after the Hamlin of  
Maine, who have for over 80 years been  
closely identified with this industry,  
about which comparatively very little is  
known.

Deposits of feldspar are commonly  
found, and have been worked at differ-  
ent times, and mica is becoming a well  
known product of the State, mines of  
which are being profitably worked in a  
few localities.

Rare minerals associated with  
gems called the lithia minerals, such as  
lepidolite, apodumene and ambygonite,  
are found abundantly in several mines  
and are a fundamental and profitable ore  
of the very expensive metal lithium, so  
extensively used in the famous curative  
lithia waters. Some of these lithia min-  
erals and others found in the State con-  
tain large percentages of the metal alu-  
minum. Many of the rarer and expen-  
sive metallic elements appear in suffi-  
ciently large percentages in these and  
other minerals to be an available source  
of supply for scientists.

# **NORTHEAST LOVELL.**

Mrs. Edna Rowe is sick.

Leola Noyes visited Isabelle Andrews,  
Tuesday.

Orrington Rowe is working for H. W.  
Palmer for a while.

Mr. and Mrs. Caleb Cushman were at  
Albert Kendall's, Tuesday.

G. A. Kimball helped Will Stanford,  
Thursday, do some farming.

Children's Day was observed at the  
Christian church, Sunday, June 13.

Hazel Keniston of Lovell No. 4 visited  
her schoolmate, Isabelle Andrews, last  
Thursday.

Mrs. Will Stanford was at Mrs. J. W.  
Card's, Wednesday, helping her in her  
housework.

Mrs. Elma Kendall and two daughters  
visited at her uncle's, Dana McAllister's,  
Wednesday.

Isabelle Andrews visited her friend,  
Grace Ring, recently. She also joined  
the Suncook Grange, No. 144.

Freeman Andrews called on his sister,  
Mrs. Adna Rowe, recently.

Arthur Forest is working for Mr. Andrews.

Teach The Children to Swim.

This is sensible and timely advice and  
should be more generally heeded than it  
is. Swimming is one of the most im-  
portant accomplishments for girls or  
men, and should be constantly taught as  
reading or writing.

In some foreign countries swimming  
is a part of the training of the children  
and they enjoy the sport and the as-  
surance of it. Here in America, learn-  
ing to swim, until quite recently, was a  
go-as-you-please boys' sport, and if the  
boy didn't get drowned before he had  
learned how to swim it was a wonder.  
The boys' summer camps and the Y. M.  
C. A. camps of late years have had com-  
petent instructors and the art of swim-  
ming has been taught for years in city  
natatoriums; but the proportion of  
American boys and girls who know how  
to swim is very small and should be  
largely increased. To have children  
taught by competent instructors how to  
swim is most important. Swimming is  
easily acquired and to be once a swim-  
mer is to be always a swimmer.

# **A Stiff Sentence.**

The stiffest sentence ever meted out  
to a chauffeur by a Maine court was  
given to James O. Bicknell, son of a Can-  
ton merchant, who with Charles A.  
Halorow was slightly injured when he  
ran an automobile belonging to Clinton  
L. Baxter into a drinking fountain at  
Portland, and damaged the machine to  
the extent of \$1,000.

Halorow was not arraigned, being un-  
der treatment in a hospital. Bicknell  
was fined \$20 and costs for fast driving,  
sentenced to 30 days in county jail for  
intoxication and was bound over to the  
superior court in the sum of \$2,000 for  
misuse of property not his own. He  
pleaded guilty to all three charges. He  
is 20 years old.

Edwin S. Poor, a prominent citizen of  
Andover, was found dead in his bed,  
Tuesday morning, June 8th. Apoplexy  
is given as the cause. Mr. Poor retired  
Monday night, apparently in as good  
health as usual. He was the son of  
Sylvanus and Eliza (Brown) Poor and  
was 64 years of age. He is survived by  
one son, two daughters, two sisters and  
two brothers.

# **SICK HEADACHE.**

Sour Stomach, Heartburn, Canker Sore  
Mouth Cured by Mi-o-na.

Sick headaches are caused by in-  
digestion and a general disturbed con-  
dition of the stomach.

Cure the indigestion, and the head-  
ache, nausea, heartburn, sour stomach,  
and that "all in" feeling will vanish.

Mi-o-na tablets will cure indigestion  
or any other stomach trouble. They  
will relieve almost instantly. Frank  
Kimball, proprietor of the Noyes drug  
store, has so much faith in them that he  
will give you your money back if they  
don't.

Mi-o-na cures by making the stomach  
strong enough to produce enough gas-  
tric juices to digest all the food you want  
to eat. It promptly puts new life and  
energy into the overworked and played-  
out walls of the stomach.

Use Mi-o-na for a week, and you can  
eat what you want any time you want it,  
and take pleasure in doing it.

Your blood will be richer, redder,  
purer after taking Mi-o-na, and it only  
costs 50 cents a large box.

"I was speedily cured of stomach com-  
plaint by Mi-o-na. Anything I can say  
in favor of Mi-o-na is not too strong."  
William Hess, Benton Harbor, Mich.  
23-25

# **HYOMEI**

(PROLUNGED HIGH-G-M-E)

Cures catarrh or money back. Just  
breathe it in. Complete outfit, including  
inhaler \$1. Extra bottles 50c. Druggists.

# **YOU DO NOT HAVE TO BE A BUSINESS MAN**

In order to have a bank account. If you are a salary man, if  
you are a retired farmer, you need a bank account. It will be an  
advantage to you in any case. A bank account will aid you to keep  
your business transactions straight. A bank account furnishes you  
with a complete record of money matters. You have a record of all  
money deposited in the bank, also a record of every bill you pay by  
check. Each check is returned to you by the bank and answers as  
a receipt.

The checking system is most convenient. It is adjusted to the  
needs of every one; for large business, for small business.

OPEN AN ACCOUNT TODAY AND FIND OUT FOR YOUR-  
SELF HOW CONVENIENT AND SAFE IT IS. 24-26

# **THE NORWAY NATIONAL BANK** of Norway, Maine.

Under the supervision of the United States Government.

# **BLUE STORES**

# **TROUSERS.**

According o you're Trousers you're wel  
dressed or you're not.

We're showing some new Summer Trou-  
sers in very choice varie'y.

The cut is perfect—the tailoring excel-  
lent and the fabrics are very handsome.

We carry all sizes and lengths and you  
can always find your size.

The Fat Man, the Tall Man, the Slim Man,  
the Short Thick Man and the Small Man are

ALL PERFECTLY FITTED HERE.
